 b) from property line to structure yes___ no___

THIS PERMIT VALID FOR 12 MONTHS FROM DATE OF ADMINISTRATIVE APPROVAL

SUPPORTING INFORMATION

Site Plan

A site plan showing the following information* is required:

1. the shape and dimensions of the site to be used or built upon,
 2. the location and dimensions of existing buildings and structures,
 3. the locations and dimensions of the proposed building, structure, or addition (including separation distances from the site boundaries),
 4. the use or uses of existing and proposed buildings on the site, and
 5. vehicular access and utility connections that may be required to service the building.
- The Development Officer may determine that some of the above information may not be required to be shown on a site plan when accessory farm buildings are being proposed

Building Plans

In accordance with the Town of Melita Building By-law and the Manitoba Building Code, building plans are required for all non-agricultural buildings, including houses, private garages, commercial and industrial buildings, institutional buildings, and accessory buildings over 100 square feet in floor area. Building Plans are not required for pre-engineered agricultural buildings (such as barns, machine sheds, grain storage structures, etc.) located on land zoned for agricultural uses.

Additional Information

In some situations, other information may also be required by the Development Officer or the Council to determine conformity with local by-laws.

DECLARATION

I, _____, hereby make application for permission to proceed with a development as described above, in accordance with and as more fully illustrated on the attached site plan and other related documents.

I undertake to comply with all of the requirements of the Town of Melita Zoning By-law and any other municipal by-law that may be applicable to the proposed development, along with any regulation, order, condition of approval, or other municipal requirement that applies to the proposed development.

I understand that the approval of this proposed development by the Town or its authorized agent or Development Officer in no way relieves me from complying with the requirements or regulations of any other Provincial or Federal department or agency, or any utility company, with respect to any aspect of the proposed development, including any environmental approval, highway setback or access approval, hydro, telephone or natural gas requirement, or any other requirement that may be applicable. I also undertake to obtain any approval requirements of these departments, agencies, or companies prior to the commencement of construction, unless otherwise authorized by that department, agency or company.

I undertake to ensure that the proposed building and related construction activity, including excavation, will take place entirely within the owner's property as described above, and will not take place on any adjacent land, unless the written consent of the adjacent landowner is obtained prior to such activity. I also undertake to contact all utility companies prior to excavation in areas where underground utilities exist.

I undertake to indemnify and save harmless the Town of Melita against all loses, costs, charges or damages caused by or arising out of anything done pursuant to this development permit or to any other municipal approval issued in connection with this proposed development.

I understand that a minimum of 24 hours notice is required for any building inspection service that I may request.
